

LUNGU ILIE DANIEL

Software Engineer

ABOUT ME

I am Ilie Daniel Lungu, a Software Engineer with a passion for developing innovative software solutions using a diverse technology stack including Java, Python, C++, and modern frameworks like Spring Boot and ReactJS. Currently enhancing software excellence at SC REEA SRL, I'm committed to continuous learning and applying my skills on practical projects. Beyond coding, I enjoy football, traveling, and exploring the world of coffee, with a keen interest in leveraging technology to create impactful solutions.

EXPERIENCE

Software Engineer

2022 – present

SC REEA SRL

- I have contributed to the development of projects for airline companies, employing Java as the primary programming language. My role involved leveraging advanced technologies, including Java Spring for the backend, JIRA for project management, Jenkins for continuous integration and deployment, and AWS for cloud services, to deliver robust and scalable solutions.
- Also I have learned to effectively collaborate within a team environment, honing my interpersonal and cooperative skills.

TECHNICAL SKILLS

- Git
- Ubuntu and other Flavors of Linux
- OOP Principles and Design Patterns
- MySQL
- C/C++ , Python, ReactJS
- Java , Spring Boot , Maven , Junit, RabbitMQ
